Moscato dello Zucco

Sicilia I.G.T.

Zone of production

Milieto, Partinico (PA).

Grape

Moscato Bianco 100%.

Exposure

Sud.

Average age of the vines

10 years.

Cultivation

Guyot, at a density of 5000 plants per hectare.

Production

6500 kg of grapes per hectare.

Grape harvest

Handpicking in the second week of September.

Vinification

Moscato Bianco grapes are selected in the vineyard and placed in a single layer in perforated crates with a capacity of approximately 3 kg. Drying takes place in the cellar until the initial weight is reduced by 50% and after very soft pressing and 12 hours' static decanting, the must goes on to ferment in oak caratelli (small barrels), where it remains until bottling.

Bottle

Liters 0,50
